

ROVER
One of Britain's Fine Cars
—now made finer!

The new "ROVER 75"—a superb 6-cylinder 18 h.p. Luxury Car—sells here in the medium-price field. Better equipped than models twice the price, the "ROVER 75" embodies every modern feature, including air conditioning, sealed chassis lubrication, central frame jacking, sunshine roof, automatic windscreen demisters, 8-inch road clearance and, above all, the surging, silent power of the new "75" engine.
