

## 4-WHEEL DRIVE MAKES LAND-ROVER A REAL UTILITY

**After just one day's work you'll  
appreciate the many ways in  
which Land-Rover can help you  
on your property.**

There's nothing on wheels to beat Land Rover's combination of power, traction and strength for travel both on and off the road. The 4-wheel drive will take you anywhere — through mud, sand and water, despite rough terrain and weather. And for speed and economy on the highway you'll find the drive as smooth as a luxury car's.

Land Rover, too, will perform a multitude of amazing jobs on your property for which you would normally require thousands of pounds worth of equipment. For a single outlay with Land Rover you have a "go anywhere" utility, a mobile power plant, and a light tractor.

Land Rover is sturdily and compactly built by the manufacturers of the Rover 75 saloon and the famous Rover gas-turbine car.
